

WIRELESS N150 HOME ROUTER

TOTAL COMPATIBILITY

Works with any Wi-Fi certified device, giving you reliability and peace of mind

TOTAL SECURITY

Complete set of security features including an SPI firewall and WPA2 wireless encryption to protect your network against intruders

EASY CONFIGURATION

Use the D-Link Setup Wizard and Wi-Fi Protected Setup™ (WPS) for easy, automatic connection to a wireless network

HIGH-SPEED WIRELESS NETWORKING

The D-Link DIR-610 Wireless N150 Home Router lets you create a high-speed wireless network for your home. Connect the DIR-610 to a broadband modem and wirelessly share your high-speed Internet connection and enjoy surfing the web, checking e-mail, and chatting with family and friends online. The router uses Wireless N 150 technology, which offers increased speed and range over the 802.11g/b standard¹. It features NAT (Network Address Translation), allowing multiple users to connect to the Internet by sharing a single IP address.

SECURE YOUR WIRELESS NETWORK

The DIR-610 includes a built-in firewall that safeguards your network from harmful attacks. It minimizes the threats of hackers and prevents intruders from entering your network. Additional security features include a Stateful Packet Inspection (SPI) firewall that analyzes network traffic, and a website filter that can be set up to prevent or allow access only to specific websites, allowing parents to prevent children from viewing inappropriate content on the Internet. The DIR-610 also supports WEP, WPA, and WPA2 encryption to keep your network traffic secure.

COMPATIBILITY ASSURANCE

The DIR-610 provides a high-speed connection to other Wireless N150 or 802.11n devices and is backward compatible with 802.11g/b, ensuring compatibility with a wide range of wireless devices. The DIR-610 also includes an integrated 4-port 10/100BASE-TX Ethernet switch that gives you the flexibility to connect up to four wired computers or devices to the network.

EASY TO INSTALL AND USE

With D-Link's Setup Wizard, you can set up your network in minutes. The wizard will guide you through an easy to follow process to install your new hardware, connect to your network, and add new devices. It configures your Internet Service Provider (ISP) settings to quickly establish broadband Internet connectivity. In addition, the DIR-610 is Wi-Fi Protected Setup™ (WPS) certified, making it even easier to configure your wireless network and enable security with a simple push of a button.

WHAT THIS PRODUCT DOES

The D-Link DIR-610 Wireless N150 Home Router lets you share your broadband Internet connection with multiple computers in your house by simply connecting the DIR-610 to your cable or DSL modem. Once connected, you can create your own personal wireless home network to connect to the Internet, or share documents, music, and photos.

EASY INSTALLATION

Set up your new D-Link networking hardware in minutes using our new Setup Wizard. The wizard will guide you through an easy to follow process to install your new hardware and connect to your network.

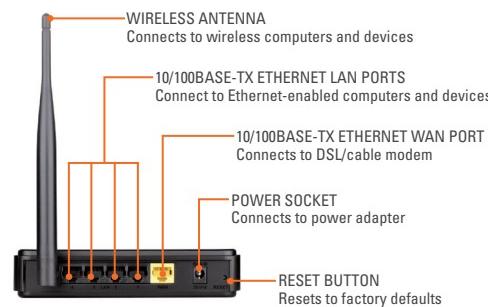

EXTEND WIRELESS NETWORK

The DIR-610 can extend wireless network coverage from another router by acting as a bridge.

ADVANCED WIRELESS FUNCTIONS

The D-Link Wireless N150 Home Router includes everything you need to get a wireless network up and running:

- Connects to Wireless N at speeds of up to 150 Mbps
- Backwards compatible with 802.11g/b
- WPA (TKIP) and WPA2 (AES) support
- WDS wireless bridge
- WPS™
- IPv6

TECHNICAL SPECIFICATIONS

SYSTEM REQUIREMENTS

- Cable or DSL modem with Ethernet port
- Computer with:
 - Windows XP SP3/Vista/7, or Mac OS X (v10.4)
 - Installed Ethernet adapter
 - Internet Explorer 7 or Firefox 3.0 or higher

STANDARDS

- IEEE 802.11b/g, compatible with 802.11n devices
- IEEE 802.3
- IEEE 802.3u

WIRELESS FREQUENCY RANGE

- 2.4 GHz to 2.4835 GHz

ANTENNA

- External fixed 5 dBi antenna

SECURITY

- WEP 64/128-bit data encryption
- Wi-Fi Protected Access (WPA/WPA2)

ADVANCED FIREWALL FEATURES

- Network Address Translation (NAT)
- Stateful Packet Inspection (SPI)
- MAC Address Filtering
- URL Filtering

POWER INPUT

- 5 V DC/1 A through external power adapter

DIAGNOSTIC LEDs

- Power
- WAN
- WLAN
- LAN
- WPS

¹ Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead lower actual data throughput rate and adversely affect the range.

DIMENSIONS (L x W x H)²

- 113.2 x 147.5 x 31.5 mm
(4.4 x 5.8 x 1.2 inches)

WEIGHT

- 200 grams (0.44 lb)

OPERATING TEMPERATURE

- 0 to 40 °C (32 to 104 °F)

STORAGE TEMPERATURE

- -20 to 65 °C (-4 to 149 °F)

OPERATING HUMIDITY

- 10% to 95% non-condensing

STORAGE HUMIDITY

- 5% to 95% non-condensing

CERTIFICATIONS

- FCC
- CSA International
- Wi-Fi Certified
- WMM

with some n features
